

REMARKS

In the Notice of Allowance, the Examiner amended the title of invention from "System for Customizing a Computer System" to "Method for Customizing a Computer System by Using Stored Configuration Parameters in a Configuration Mechanism." Applicant has further amended the title of invention to delete "method for" as the claims in the present application do not recite a "method," but instead recite a "computer system." No new matter has been added.

CONCLUSION

On the basis of the above remarks, Applicant respectfully requests that the above amendments be entered. If the Examiner has any issues with entering the above amendments, the Examiner is respectfully requested to contact the undersigned at the number listed below.

Respectfully submitted,
SAWYER LAW GROUP LLP

Dated: February 9, 2006

Erin C. Ming
